## 3% wage increases starting July 1

New inflation figures released confirm that the maximum wage protections in our K-12 Provincial Framework Agreement (PFA) will be triggered, and members will receive the full 3 percent wage increase starting July 1, 2024.

BCPSEA will be providing school districts with updated wage grids as soon as possible.

Wage grids will also be sent to Locals to share with their membership.

This brings the total general wage increases over the 3-year agreement to well over 13 percent for most members. This will be the last wage increase of the current PFA, which expires June 30, 2025.
